ADVANTYS Listed by Major Industry Analyst Firm in 2004 Magic Quadrant

Paris, France - (May 25, 2004): ADVANTYS' SES has been listed in Gartner, Inc.'s Smart Enterprise Suite (SES) Magic Quadrant 2004.

According to the report "The SES combines the functionality of portal, collaborative and content management technologies, and delivers these in an integrated suite, provides a broad foundation to support knowledge or information work within an enterprise, or between groups in different enterprises, and may be considered the platform for knowledge management, focuses on support for unstructured work processes, but through portal-based integration with business applications can provide a comprehensive digital or electronic workplace." The Smart Enterprise Suite Magic Quadrant for 2004 is available directly from Gartner, Inc. at www.gartner.com

"We feel the listing of our Smart Enterprise Suite in Gartner, Inc.'s Magic Quadrant is a great industry recognition that confirms ADVANTYS' strategy to be an early player in this emerging market", said Alain Bezancon, President and co-founder of ADVANTYS. "With PubliGen (Portal and CMS), WorkflowGen (Workflow) and eGroupGen (collaboration) our SES offers a single platform and pragmatcal technical environment to quickly achieve ROI with the implementation of an Enterprise web based information system".

ADVANTYS' SES is the result of more than 9 years spent integrating corporate web information systems specializing in Content Management, Collaborative Work, Workflow and Development Tools. Smart Enterprise Suite is first and foremost a pragmatic solution aimed at organizations confronted with the age old problem of achieving more and more with fewer resources. All ADVANTYS solutions are developed with the specific aim of addressing problems encountered by users within as short a timeframe as possible and at optimum cost.

Advantys was listed in the Niche Players Quadrant. Vendors listed in the Niche Players quadrant focus on a particular segment of the client base, as defined by characteristics such as size, vertical or project complexity. Their ability to outperform or innovate may be impacted by this narrow focus.
